## IRISH DRAUGHT HORSE STUBOOK MARE INSPECTIONS

These mare inspections will offer owners an evaluation of their breeding stock. Irish Draught Horse mares of 2 years old or older are invited for inspection where they will be assessed on their pedigree, conformation and movement. Mares aged 3 years and older will be given the opportunity to loose jump in order to have their athleticism assessed. A veterinary examination will be carried out on the mares. A Linear Scoring profile will be completed to provide owners with a detailed description of their mare's conformational strengths and weaknesses which will be invaluable when making future breeding decisions. A merit system will provide additional merits for mares that meet the veterinary and inspection requirements. Mares that meet the requirements to be classified in CLASS 1 and achieve average scores of 80 or higher for conformation and movement will be awarded an additional 'Bronze' merit in 'Conformation and Movement'. Mares that meet the requirements to be classified in CLASS 1 and have their athleticism assessed through loose jumping and achieve a score of 70 or higher in the athleticism will receive a 'Bronze' merit in 'Showjumping'. These merits will assist mare owners with demonstrating the added value of their mare when selling them or their progeny.
