IRISH DRAUGHT HORSE STUDBOOK MARE SELECTIONS

These mare Selections will offer owners an evaluation of their breeding stock. Irish Draught Horse mares of 2 years old or older are invited for Selection where they will be assessed on their pedigree, conformation and movement. A veterinary examination will be carried out on the mares. The owners of mares that are classified as 'RID' or 'AID' in the Irish Draught Horse Studbook in Ireland are also invited to have their mares linear profiled. A linear profile will be completed to provide owners with a detailed description of their mare's strengths and weaknesses which will be invaluable when making future breeding decisions. A merit system will provide additional merits for mares that meet the veterinary and Selection requirements. Mares that meet the requirements of the Selection will be classified in CLASS 1 and those mares which achieve average scores of 80 or higher for conformation and movement will be awarded an additional 'Bronze' merit in 'Conformation and Movement'. Mares may have their athleticism assessed by means of a loose jumping demonstration. Mares that achieve a score of 70 or higher in their athleticism demonstration may receive a 'Bronze' merit in 'Showjumping'. These merits will assist mare owners with demonstrating the added value of their mare when selling them or their progeny.
