Every person should at all times, show respect and understanding for participants' rights, safety, welfare and conduct themselves in a way that reflects the principles of the organisation and the guidelines contained in our ***Code of Ethics and Good Practice for Children's Sport***.

HSI is committed to ensuring that equity is incorporated across all aspects of its development.

The welfare of our young people in HSI is our first priority and we are committed to providing an environment that will allow participants to perform to the best of their ability, free from abuse, neglect, bullying and intimidation.

Every individual in HSI who has a duty of care to children signs up and adheres to this Code of Ethics & Good Practice, including but not exclusively the following; Administrators at all levels, Officials, Coaches, Volunteers and Parents/Guardians.

We will ensure the careful recruiting and selecting of all our Coaches and Volunteers and that they are aware of the responsibility to safeguard children in their care.

We will ensure that Parents/Guardians and Children are given the appropriate opportunity to voice concerns they may have at any given time.

We will ensure a continuous review by HSI of the effectiveness of our child protection policies, procedures and codes. This continuous review will be carried out by our National Children's Officer (ROI)/Designated Safeguarding Children's Officer (NI)

- **Access NI** - is a disclosure service established by the Government under Part V of the Police Act 1997. It can take many forms, but the three main types are physical (e.g. hitting, kicking, theft), verbal (e.g. racist or sectarian remarks, threats, name-calling) and emotional (e.g. isolating an individual from the activities and social acceptance of his peer group). The damage inflicted by bullying can frequently be underestimated. It can cause considerable distress to children, to the extent that it affects their health and development or, at the extreme, causes them significant harm (including self-harm).
- **Child (young member)** - A 'child' or young person is any person under the age of 18 as defined under the Child Care Act, 1991 (ROI) and Children's (NI) Order
- **Child Abuse**
 - **Physical:** Is that which results in actual or potential physical harm from an interaction or lack of interaction, which is reasonably within the control of a parent or person in a position of responsibility, power or trust (*Children First 2011 2.4.1*)
 - **Neglect:** an *omission*, where the child suffers significant harm or impairment of development by being deprived of food, clothing, warmth, hygiene, intellectual stimulation, supervision and safety, attachment to and affection from adults, medical care. (*Children's First 2011 2.2*)

It may include non-contact activities such as involving children in looking at pornographic material or watching sexual activities, or encouraging children to behave in sexual inappropriate ways. (*Children First 2011 2.5.1*)
 - **Emotional:** Emotional abuse is normally to be found in the *relationship* between a parent/carer and a child rather than in a specific event or pattern of events. It occurs when

a child's developmental need for affection, approval, consistency and security are not met. Unless other forms of abuse are present, it is rarely manifested in terms of physical signs or symptoms. (*Children's Officer 2011 2.3*)

- **Instructors/Trainer/Coach** - are involved in the systematic development of the core skills and abilities of an activity, usually in a non-competitive context.

- **Official** - An official is an individual charged with the responsibility of ensuring that the rules of an activity are adhered to in a formal way. This category includes referees, judges, umpires, etc.
- **Our Duty To Care** - Document issued by the Department of Health & Children in ROI and the DHSSPS in NI, aimed at community and voluntary organisations that provide services for children.

It offers guidance on the promotion and the development of safe practices when working with children

- **Safeguarding** - Previously, the most commonly used phrase to describe this area of work was 'child protection'. However there has been a shift in the last few years to the term 'safeguarding'. Whereas child protection literally means protecting children from abuse and neglect, safeguarding widens practice around their needs so that it is about creating an environment where the welfare of children and young people is actively promoted. Promoting welfare is about helping children and young people achieve their potential and ensuring they are safe and adequately cared for
- **Sports Leaders** - The principal leadership roles (some of which overlap) include the following:
 - **Manager (Chef d'Equipe):** is an individual who takes overall responsibility for a team or a group of sports people and who will often have a direct input into the nature and organisation of the activity itself.

On the 1st of January 2014 the Child and Family agency became an independent legal entity, comprising HSE Children & Family Services, Family Support Agency and the National Educational Welfare Board as well as incorporating some psychological services and a range of services responding to domestic, sexual and gender based violence.
- **U.N. Convention On The Rights Of The Child** - A 'bill of rights' for all children. It contains rights relating to every aspect of children's lives. Ireland ratified the U.N. Convention in 1992 and the UK in 1991.

4. Role of Children's Officer and Designated Liaison Person

In every aspect of HSI activities it is paramount that best practice is being followed. HSI will ensure that Children's Officers and Designated Liaison Persons are appointed to help and encourage a youth centred ethos.

4.1 Children's Officer (Ciara Gorman HSI) (Designated Safeguarding Children's Officer (NI))

The HSI Children's Officer should be child centred in focus and have as their primary aim the establishment of a youth centred ethos. Generally they are the link between the children and the adults. It is however possible that child protection concerns will be brought to the attention of the Children's Officer (or Designated Liaison Person) and it is essential that they discuss all concerns with the Designated Liaison Person and follow the correct procedures as outlined in 'Children First/ Co-operating to Safeguard Children'.

5. Codes Of Conduct

What is most paramount to the young people involved in HSI is their personal dignity and physical integrity. It is important that all young people involved in HSI are treated with the highest level of respect and valued within the organisation. Young people's participation in our sport should allow them to make friends, enjoy their participation and give them an opportunity to improve their skills.

HSI realises the importance of a child centred approach and as an organisation one of the main goals is to ensure all involved adopt the youth centred approach in the promotion and development of the sport.

WE RECOGNISE THAT WE HAVE A RESPONSIBILITY TO:

- Promote the interests and safeguard all members less than 18 years of age in HSI.
- Respect the rights, wishes and feelings that young people may have.

THE FOLLOWING PRINCIPLES GOVERN THE DEVELOPMENT AND IMPLEMENTATION OF THIS CODE OF ETHICS AND GOOD PRACTICE FOR YOUTHS IN HSI:

- The welfare of the child and young person is paramount

It is vital that everyone involved in HSI activities accept their individual and combined roles and responsibilities in the safeguarding of our young members. The welfare of the child is the primary key in maintaining an enjoyable and safe environment for all.

HSI **Codes of Conduct** apply to everyone involved in any HSI activity involving our young members. By implementing the Codes, HSI wish to promote fair play, respect, equal opportunities and safety (***the various codes can be amended as appropriately for a particular activity***).

In respect of allegations or suspicions of abuse, the standard reporting procedures as outlined in Section 7 should be followed.

HSI WILL ATTEMPT TO RECTIFY ANY ISSUE INFORMALLY IF INDIVIDUALS ARE AGREEABLE.

- Complaints should be dealt with where possible verbally at source locally.
- Complaints may be lodged by all athletes and the parents of young participants involved in an event under the control of HSI. They should be received in writing (preferably completing the HSI Complaint form) by the HSI Children's Officer and should be responded to within 5 working days.
- The complaint should outline all relevant details about other parties involved.
- The Children's Officer may be required to convene the complaints committee.
- If the complaint involves a possible criminal offence the Chairperson should disband the complaints committee and talk to the Children's Officer/Designated Safeguarding Children's Officer. The statutory authorities will then be informed.
- The complaints committee should hear the case of all parties involved and decide if a rule or regulation or the Code of Ethics has been infringed. They should, in writing, inform those involved of the sanctions to be imposed and the reason for the sanctions.
- Written notification should be given to parents if the complaint is against a young person. Written confidential records on all complaints should be kept safely and confidentially on file.
- If any party does not agree with the complaints committee, they can appeal the decision in writing to the HSI Appeals committee within a 10-day period. The appeals committee is convened; whose members will not have heard the original complaints committee.
- The appeals committee should confirm or set aside or change any sanction imposed by the complaints committee.

(iii) Anti-Bullying Policy

Bullying can occur between an adult and young person, young person to young person and adult to adult. **Bullying is not acceptable within HSI.** The competitive nature of sport can create an environment that provides opportunities for bullying. The bully may be a parent who pushes too hard, a coach who adopts a win-at-all costs philosophy, a young player who intimidates another or an official who places unfair pressure on a person.

Bullying can only survive in an environment where the victim does not feel empowered to tell someone who can help or in which it is not safe to do so. The damage inflicted by bullying can frequently be underestimated. It can cause considerable distress to young people, to the extent it affects their health and development, or at the extreme, causes them significant harm. There are a number of signs that may indicate a person is being bullied:

- Reluctance to come to a venue or take part in activities
- Physical signs (unexplained bruises, scratches, or damage to belongings)
- Stress-caused illness – headaches, and stomach aches which seem unexplained
- Fearful behaviour (fear of walking to a training/match, going different routes, asking to be driven)
- Frequent loss of, or shortage of, money with vague explanations
- Having few friends or drop out of newer members
- Changes in behaviour (withdrawn, stammering, moody, irritable, upset, distressed, not eating, reduced concentration, drop in performance)
- Anxiety (shown by nail-biting, fearfulness, tics)

This list is **not exhaustive** and there are other possible reasons for many of the above. The presence of one or more of these indicators is not proof that bullying is actually taking place.

HOW CAN IT BE PREVENTED?

- Ensure that all members follow the Code of Conduct, which promotes the rights and dignity of each member.
- Deal with any incidents as they arise.

- Use a whole group policy or ‘no-blame approach’, i.e., not ‘bullying the bully’ but working with bullies and the group of young people, helping them to understand the hurt they are causing, and so make the problem a ‘shared concern’ of the group.
- Reinforce that there is ‘a permission to tell’ culture rather than a ‘might is right’
- Encourage young people to negotiate, co-operate and help others, particularly new or different children.
- Offer the victim immediate support and put the ‘no blame approach’ into operation
- Never tell a young person to ignore bullying, they can’t ignore it, it hurts too much
- Never encourage a young person to take the law into their own hands and beat the bully at their own game
- Tell the victim there is nothing wrong with them and it is not their fault

WHO SHOULD DEAL WITH BULLYING?

While the more extreme forms of bullying would be regarded as physical or emotional abuse and are reported to the statutory authorities, dealing with bullying behaviour is normally the responsibility of all leaders within the organisation but you should also liaise with the appropriate senior officer (i.e. HSI National Children’s Officer/Designated Safeguarding Children’s Officer).

For further information on bullying and the ‘no-blame’ approach see websites, www.irishsportcouncil.ie and www.thecpsu.org.uk

(IV) Guidelines on General Issues

TRAVELLING WITH CHILDREN

Most of HSI activities will involve transportation to events by parents.

When this does not happen, there is extra responsibility taken on by team managers/chefs/coaches etc when they travel with children to events. When travelling with our young athletes our responsible adults must take account of the following:

- Avoid being alone with one participant, if necessary put athlete in the back seat, drop off at central locations or seek parental permission to transport an individual athlete on a regular basis and clearly state times of pick- up and drop off
- Not carry more than the permitted number of passengers
- Ensure that there is adequate insurance cover
- Ensure use of safety belts

SUPERVISION

As team managers/chefs/coaches etc make sure there is always an adequate adult child ratio. This will depend on the nature of the activity, the age of the participants and any special needs of the group.

- As a guide a ratio of 1:10 for under 12 years of age and 1:12 for participants over 12 years of age. This is only a guide and will change depending on the circumstances, e.g. athletes with special needs or away trips
- There should be a minimum of 2 adults per group at any one time.
- Where there are mixed groups there should be leaders of both genders
- Avoid being alone with one athlete, if you need to talk separately do so in an open environment, in view of others
- Coaches should not have to enter the changing rooms/horse boxes/stables etc unless the athletes are very young or need special assistance, where supervision should be in pairs of appropriate gender
- Clearly state time for start and end of training sessions or competitions, coaches should remain in pairs until all athletes have been collected
- Keep attendance records and record of any incidents / injuries that arise.

- Facilitate parents who wish to stay and supervise sessions (for safety and supervision, not necessarily for their 'technical' expertise).
- If they are agreeing to take on this role, they should sign up to the HSI Code of Conduct (HSI will consider if a Garda/AccessNI Vetting check is required for such a role).

AWAY TRIPS / OVERNIGHT STAYS

- HSI Travel Permission form should be signed by parents and athletes containing emergency contact numbers etc
- Athletes should sign the HSI Code of Conduct
- The Team Manager appointed should make a report on returning home to HSI National Children's Officer
- A meeting with parents and athletes is useful to communicate travel times, competition details, other activities, gear requirements, medical requirements, special dietary needs and any other necessary details
- Rooming arrangements – adults, other than the parents of an athlete, should not share rooms with children, in the absence of an athlete's parents, children share rooms with those of same age and gender and adults should knock before entering rooms
- All group socialisation should take place in communal areas (i.e. no boys in girls' rooms and vice versa).
- Athletes are forbidden to partake in alcoholic drink, smoking or other illegal substances
- There must be at least one adult of each gender with a mixed party, there should be a good adult / child ratio and proper access to medical personnel
- Lights out times should be enforced
- Young athletes should be under reasonable supervision at all times and should never leave the venue or go unsupervised without prior permission

HOSTING OR BEING HOSTED

Whilst generally not common in our activities, if the opportunity arises for HSI, HSI will follow procedures to ensure the safety of our young athletes including emphasis on:

- All travel, accommodation arrangements, delegation details, contact numbers, details codes of conduct, should be made known to parents and athletes
- Codes of conduct

- Rooming arrangements
- Happiness of the young person
- Respect to the host families
- Information on destination and venue
- Consent to appropriate vetting checks and references
- Host family attend meetings before competitions or events
- Provide a safe and supportive environment for young people
- Completion of young person details form.
- Parents who still have a concern should be encouraged to voice any concerns
- Be made aware of the importance of reporting concerns.
- Parents should be advised that if athletes behave inappropriately, arrangements will be made for the athlete's early return home. The athlete's parents must meet any extra expense.

SAFETY

HSI's safety statement includes all the appropriate areas to ensure a safe environment for all (this includes listing the specific and potential risks attached to our activities).

All individuals working with our young athletes have a duty of care and the following must be applied:

- Ensure our activities are suitable for age and stage of development of athletes
- Keep a record of any specific medical conditions of the participants
- Keep a record of emergency contact numbers for parents / guardians
- Ensure any necessary protective gear is used. Complete risk assessments
- Ensure First Aid kit is stocked and is close at hand with access to qualified first-aid person
- Know the contact numbers of emergency services
- Ensure easy access to medical personnel if needed and have an emergency plan
- If an incident occurs, make a brief record of injury and action taken. Make a brief record of the problem/action/outcome. Contact the athlete's parents and keep them informed of all details
- Athletes should know and keep to the sportsmanship guidelines of HSI, adhering to our Codes of Conduct and remembering that many rules are there for safety
- Coaches should hold appropriate qualifications required
- Ensure there is adequate insurance cover for all activities

- Ensure when required parents / guardians are present at finishing time of sessions or events
- Keep records of accidents and incidents by completing the Accident or Incident forms in the Appendix

LATE COLLECTION

Parents/guardians may need reminding of the policy in relation to good practice and supervision. It is important that the coach/team manager can contact the parent/guardian in the event of late collection. If there is no answer to the phone number on file ask the young person if there is another family member to contact. Wait with the young person at the venue, preferably with other HSI volunteers.

GUIDELINES FOR PHOTOGRAPHIC/RECORDED IMAGES

HSI guidelines are not about preventing parents and guardians from taking photographs but rather to ensure that only those who have a right to take photographs do so.

These guidelines should still permit and facilitate the recording of relevant and suitable materials. HSI recognise that our coaches may wish to avail of the latest technology at training sessions and viewing performance but in a safe and non threatening manner.

To avoid any concerns HSI will where possible use illustrations when promoting an activity and avoid the use of the first name and surname of individuals in a photograph. This reduces the risk of inappropriate, unsolicited attention from people within and outside the sport. This is not to avoid parents/guardians taking photographs of their children but to ensure that best practice is put in place wherever and whenever photographs and recorded images are taken and stored.

GENERAL GUIDELINES FOR USE OF PHOTOGRAPHY:

- Ask for parental permission to use the athletes' image and consult with the parents about its usage. (See photograph permission section of Information Form for Young Athletes)
- Only use images of young people in suitable dress to reduce the risk of inappropriate use.
- If you are concerned about the use of images inappropriately in HSI, follow the child protection procedures outlined in section 7.

Amateur photographers/film/video operators wishing to record an event or practice session should seek accreditation with the event organiser.

HSI request that the following information is displayed prior to the start of an event to inform spectators of the policy:

“HSI request that at this event request that any person wishing to engage in any video, zoom or close range photography should register their details with the event organisers before carrying out any photography. HSI event organisers reserve the right to decline entry to any person unable to meet or abide by the organisers conditions”.

When commissioning professional photographers or inviting the press to a HSI Event, we will ensure they are clear about our expectations of them in relation to child protection. Professional photographers/film/video operators wishing to record an event or practice session should seek accreditation with the HSI Event Organiser by producing their professional identification for the details to be recorded.

MOBILE PHONES

Responsible and secure use of mobile phones by adults and young people is encouraged by HSI and in general the following should apply when communicating with underage athletes.

Anyone working with our young athletes should never place themselves in a compromising position by texting or communicating via social media sites with underage athletes. All such communications regarding HSI activities should be sent via the parents or guardians of the underage athlete, ***unless otherwise agreed*** with the parents/guardians, in writing (see HSI Information Form for Young Athletes).

- **As an adult** - Do not communicate individually by text/email sites with underage athletes.
- **As an adult** - Do not engage in communications with underage athletes via social network sites.

AS A YOUNG PERSON REMEMBER:

- If you receive an offensive photo, email or message, do not reply, save it, make a note of times and dates and tell a parent or Children's Officer/Designated Safeguarding Children Officer within HSI
- Change your phone number in cases of bullying or harassment
- Be careful about who you give your phone number to and don't respond to unfamiliar numbers
- Don't use the phone in certain locations; inappropriate use of your camera phone may cause upset or offence to another person, e.g. in changing rooms
- Treat your phone as you would any other valuable item so that you guard against theft

SOCIAL MEDIA GUIDELINES

As a person involved in Horse Sport Ireland activities you are not always using social media in a professional capacity and Horse Sport Ireland respects your rights to use these media platforms in a personal capacity. HSI would ask you to keep in mind the following: *(implications that may follow if you chose to refer to Horse Sport Ireland from a personal social media site)*

- Adhere to Horse Sport Ireland's applicable documents
- You are responsible for your actions but remember that those actions may have consequences for HSI. You have a responsibility when using social media platforms to not do anything online that might tarnish the image of Horse Sport Ireland
- Look out for compliments and criticism. Even if you're not online as a spokesperson for HSI, if you spot positive or negative remarks about the HSI that look important, forward them to the marketing department
- Do not mix your official Horse Sport Ireland role with your personal life online. Not everyone will be able to make the distinction between the two. While HSI respects freedom of speech, remember that all online users can see everything you post. Use your judgment and common sense.
- Never disclose non-public information regarding HSI, including confidential information.
- Remember that it may cause conflict if you take a position online that is counter to Horse Sport Ireland's interests, policies and regulations.

7. Child Welfare & Protection Procedures

The primary goal for all involved in children's sport is to provide a safe and positive environment where young people can develop as individuals.

HSI accepts that organisations which include young people among its members may be vulnerable to the occurrence of child abuse. Below are the procedures for dealing with any welfare or protection issues that may arise. Within HSI Child welfare and the protection of young people is the concern of all adults at all times, irrespective of their role within the organisation.

HSI WILL ADOPT THE FOLLOWING PROCEDURES:

- Everyone involved in the promotion of our sport should be familiar with the signs and behaviours that may prompt a concern for the safety of the young person. There are four categories of abuse types, ***neglect, emotional, physical and sexual***. For more detailed information on these categories, (including the possible signs and behaviours) please refer to Children's First (National Guidelines for the Protection and Welfare of Children (ROI) and Co-operating to Safeguard Children (NI).
- If there are grounds for concern about the safety or welfare of a young person in HSI, you should discuss your concerns with the Designated Liaison Person who will contact the Duty Social Worker in the Tusla - Child and Family Agency (CFA) or Health and Social Care Trusts (HSCT) where they will receive advice. Grounds for concern include information from a child, a statement from a person who witnessed abuse or an illness, injury or behaviour consistent with abuse.
- A report may be made by any individual involved in HSI activities and it should be passed on to the Designated Liaison Person/Children's Officer who may in turn have to pass the concern to the local Statutory Authorities. It is not the responsibility of anyone working within Horse Sport Ireland, in a paid or voluntary capacity, to take responsibility or decide whether or not child abuse is taking place - that is the job of the local Statutory Authorities. However, there is a responsibility to protect children by assisting the appropriate agencies so that they can then make enquiries and take any necessary action to protect the young person.
- Everyone should follow both procedures outlined below, firstly the procedure for responding to a child disclosing a potential or actual abuse concern and secondly the procedure for reporting the concern.
- Anyone who has a concern about any child's welfare or safety outside of HSI can make a report directly to the local CFA/HSCT or Gardai/PSNI

RESPONDING TO A DISCLOSURE:

When a young person discloses information of actual or suspected abuse you should:

- Deal with any allegation of abuse in a sensitive and competent way through listening to and facilitating the child to tell about the problem, rather than interviewing the child about details of what happened
- Stay calm and do not show any extreme reaction to what the child is saying. Listen compassionately and take what the child is saying seriously
- Understand that the child has decided to tell something very important and has taken a risk to do so. The experience of telling should be a positive one so that the child will not mind talking to those involved in the investigation
- Be honest with the child and tell them that it is not possible that keep information a secret, but that only those who need to know will be informed
- Make no judgmental statements against the person whom the allegation is made
- Not question the child unless the nature of what they are saying is unclear. Leading questions must be avoided. **Open, nonspecific questions should be used** such as “Can you explain to me what you mean by that”
- Check out the concerns with the parents/guardians before making a report unless doing so would endanger the child or compromise an investigation (advice from the Social Work Department can be sought by the Designated Person in relation to this)
- Give the child some indication of what will happen next, such as informing parents/guardians, CFA or Social Services. It should be kept in mind that the child may have been threatened and may feel vulnerable at this stage
- Carefully and accurately record the details
- Pass on this information to the Designated Liaison Person:
- Reassure the child that they have done the right thing in telling you

REPORTING PROCEDURES:

The following steps should be taken in reporting child abuse to the Statutory Authorities:

- Observe and note dates, times, locations and contexts in which the incident occurred or suspicion was aroused, together with any other relevant information
- Report the matter as soon as possible to the Designated Liaison Person with responsibility for reporting. If the Designated Liaison Person has reasonable grounds for believing that the child has been abused or is at risk of abuse, they will make a report to the CFA/HSCT who have statutory

responsibility to investigate and assess suspected or actual child abuse In cases of emergency where a child appears to be at immediate and serious risk and the Designated Liaison Person is unable to contact a Duty Social Worker, the Police Authorities should be contacted. Under no circumstances should a child be left in a dangerous situation pending intervention by the Statutory Authorities

- If the Designated Liaison Person is unsure whether reasonable grounds for concern exist they can informally consult with the local CFA/HSCT. They will be advised whether or not the matter requires a formal report. This report will be made on a standard Reporting Form – see ROI & NI reporting forms in appendix of this document.
- The designated Liaison Person reporting suspected or actual child abuse to the Statutory Authorities will first inform the family of their intention to make such a report, unless doing so would endanger the child or undermine an investigation (advice from the Social Work Department should be sought in relation to this).
- In the ROI, the Protection for Persons Reporting Child Abuse Act, 1998 provides immunity from civil liability to persons who report child abuse ‘reasonably and in good faith’ to the CFA or the Gardai (See 5.11 pages 44/45– ISC. Code). The Act also covers the offence of ‘false reporting’. The main provisions of the Act are:
 - a) The provision of immunity from civil liability to any person who reports child abuse “reasonably and in good faith” to designated officers of CFA or any member of An Garda Síochána
 - b) The provision of significant protections for employees who report child abuse. These protections cover all employees and all forms of discrimination up to and including dismissal
 - c) The creation of a new offence of false reporting of child abuse where a person makes a report of child abuse to the appropriate authorities “knowing that statement to be false”. This is a new criminal offence designed to protect innocent persons from malicious reports

This law does not exist in N.I. but an individual who reports concerns in ‘good faith’ is not deliberately attempting to slander another person’s name. In N. I. there is legislation, the Criminal Law Act (NI) 1967, which places the responsibility on everyone to report offences or to forward information to the Police by emphasising the, ‘duty of every other person, who knows or believes, (a) that the offence or some other arrest-able offences has been committed: and (b) that he has information which is likely to secure, or to be material assistance in securing, the apprehension, prosecution or conviction of any person for that offence’.

ALLEGATIONS AGAINST ADULTS:

The following procedures should be followed in cases of alleged child abuse against Coaches/Officials. If such an allegation is made against those named working within Horse Sport Ireland, two procedures should be followed:

- The reporting procedure in respect of suspected child abuse (reported by the Designated Liaison Person/Children's Officer), see previous page
- The procedure for dealing with the individual within CFA (carried out by the Designated Liaison Person and the referrals committee.)

The safety of the child making the allegation should be considered and the safety of any other children who may be at risk. HSI should take any necessary steps to protect children in its care. The issue of confidentiality is important. Information should only be shared on a "need to know" basis and the individual should be treated with respect and fairness.

THE REPORTING PROCEDURE:

If the Designated Liaison Person has reasonable grounds for concern, the matter should be reported to the local CFA/HSCT following the standard reporting procedure.

While the Designated Liaison Person makes the report to the CFA/HSCT, the Designated Liaison Person should also deal with the individual in question.

- The Designated Liaison Person should privately inform the individual that (a) an allegation has been made against them and (b) the nature of the allegation. The individual should be afforded an opportunity to respond and their response should be noted and passed on to the CFA/HSCT
- The individual should be asked to step aside pending the outcome of the investigation. When a person is asked to step aside it should be made clear that it is only a precautionary measure and will not prejudice any later disciplinary proceedings.

The HSI referrals committee can consider disciplinary action against the individual but should ensure that this does not interfere with the investigation of the Statutory Authorities. The Designated Liaison Person should maintain links with the Statutory Authorities while any investigation is ongoing. It is important that HSI considers the outcome of the investigation and any implications it might have. The fact that the alleged abuser has not been prosecuted or been found guilty does not mean that they are appropriate to work with young people in the future.

DISCLOSURE AND BARRING SERVICE RESPONSIBILITY

In Northern Ireland HSI is aware of its duty under the Safeguarding Vulnerable Groups (NI) 2007 Order to refer information to the Disclosure and Barring Service (DBS) in certain circumstances.

In all cases there are two conditions, both must be met to trigger a referral to the DBS by a regulated activity provider like HSI:

- permission is withdrawn for an individual to engage in regulated activity, or it would have been had that individual not resigned, retired, been made redundant or been transferred to a position which is not regulated activity; because
- HSI think that the individual has:
 - engaged in relevant conduct;
 - satisfied the Harm Test; or
 - Received a caution or conviction for a relevant offence.

If both conditions have been met the information must be referred to the DBS. The referral should be made to the DBS when HSI has gathered sufficient evidence as part of their investigations to support their reasons for withdrawing permission to engage in regulated activity and, in following good practice, consulted with their local statutory authorities if appropriate.

CONFIDENTIALITY

Confidentiality should be maintained in respect of all issues and people involved in cases of abuse, welfare or bad practice. It is important that the rights of both the child and the person about whom the complaint has been made are protected.

The following points should be kept in mind:

- A guarantee of confidentiality or undertakings regarding secrecy cannot be given, as the welfare of the child will supersede all other considerations
- All information should be treated in a careful and sensitive manner and should be discussed only with those who need to know
- Information should be conveyed to the parents/guardians of the child in a sensitive way. Discussion with the Statutory Authorities should take place in relation to information sharing with all parties when ongoing investigations are taking place
- Giving information to others on a “need to know” basis for the protection of a child is not a breach of confidentiality

- All persons involved in a child protection process (the child, their parents/ guardians, Coaches, the alleged offender and their family) should be afforded appropriate respect, fairness, support and confidentiality at all stages of the procedure
- Information should be stored in a secure place, with limited access only by designated people
- The requirements of the Data Protection laws should be adhered to
- Breach of confidentiality is a serious matter

ANONYMOUS COMPLAINTS

Anonymous complaints can be difficult to deal with but should not be ignored. In all cases the safety and welfare of the child/children is paramount. Any such complaints relating to possible child protection concerns should be brought to the attention of the Designated Liaison Person. The information should be checked out and handled in a confidential manner.

RUMOURS

Rumours should not be allowed to hang in the air. Any rumours relating to possible child protection concerns should be brought to the attention of the Designated Liaison Person, and checked out without delay. For details of Child and Family Agency (CFA) and Health and Social Care Trusts (HSCT) contacts, please refer to appendix in this document.

TYPES OF ABUSE

Child abuse can be categorised into four different types. They are, neglect, emotional abuse, physical abuse and sexual abuse. A child may be subjected to one or more forms of abuse at any given time. (Child and Family Agency)

NEGLECT

Neglect can be defined in terms of an omission, where the child suffers significant harm or impairment of development by being deprived of food, clothing, warmth, hygiene, intellectual stimulation, supervision and safety, attachment to and affection from adults, and/or medical care.

Harm can be defined as the ill-treatment or the impairment of the health or development of a child. Whether it is significant is determined by the child's health and development as compared to that which could reasonably be expected of a child of similar age.

Neglect generally becomes apparent in different ways over a period of time rather than at one specific point. For example, a child who suffers a series of minor injuries may not be having his or her needs met in terms of necessary supervision and safety. A child whose height or weight is significantly below average

may be being deprived of adequate nutrition. A child who consistently misses school may be being deprived of intellectual stimulation.

The threshold of significant harm is reached when the child's needs are neglected to the extent that his or her well-being and/or development are severely affected.

EMOTIONAL ABUSE

Emotional abuse is normally to be found in the relationship between a parent/carer and a child rather than in a specific event or pattern of events. It occurs when a child's developmental need for affection, approval, consistency and security are not met. Unless other forms of abuse are present, it is rarely manifested in terms of physical signs or symptoms. Examples may include:

- The imposition of negative attributes on a child, expressed by persistent criticism, sarcasm, hostility or blaming;
- Conditional parenting in which the level of care shown to a child is made contingent on his or her behaviours or actions;
- Emotional unavailability of the child's parent/carer;
- Unresponsiveness of the parent/carer and/or inconsistent or inappropriate expectations of the child;
- Premature imposition of responsibility on the child;
- Unrealistic or inappropriate expectations of the child's capacity to understand something or to behave and control himself or herself in a certain way;
- Under- or over-protection of the child;
- Failure to show interest in, or provide age-appropriate opportunities for, the child's cognitive and emotional development;
- Use of unreasonable or over-harsh disciplinary measures;
- Exposure to domestic violence;
- Exposure to inappropriate or abusive material through new technology.

Emotional abuse can be manifested in terms of the child's behavioural, cognitive, affective or physical functioning. Examples of these include insecure attachment, unhappiness, low self-esteem, educational and developmental underachievement, and oppositional behaviour. The threshold of significant harm is reached when abusive interactions dominate and become typical of the relationship between the child and the parent/carer.

PHYSICAL ABUSE

Physical abuse of a child is that which results in actual or potential physical harm from an interaction, or lack of interaction, which is reasonably within the control of a parent or person in a position of responsibility, power or trust. There may be single or repeated incidents.

Physical abuse can involve:

- Severe physical punishment;
- Beating, slapping, hitting or kicking;
- Pushing, shaking or throwing;
- Pinching, biting, choking or hair-pulling;
- Terrorising with threats;
- Observing violence;
- Use of excessive force in handling;
- Deliberate poisoning;
- Suffocation;
- Fabricated/induced illness
- Allowing or creating a substantial risk of significant harm to a child.

SEXUAL ABUSE

Sexual abuse occurs when a child is used by another person for his or her gratification or sexual arousal, or for that of others. Examples of child sexual abuse include:

- Exposure of the sexual organs or any sexual act intentionally performed in the presence of the child;
- Intentional touching or molesting of the body of a child whether by a person or object for the purpose of sexual arousal or gratification;
- Masturbation in the presence of the child or the involvement of the child in an act of masturbation;
- Sexual intercourse with the child, whether oral, vaginal or anal;
- Sexual exploitation of a child, which includes inciting, encouraging, propositioning, requiring or permitting a child to solicit for, or to engage in, prostitution or other sexual acts. Sexual exploitation also occurs when a child is involved in the exhibition, modeling or posing for the purpose of sexual arousal, gratification or sexual act, including its recording (on film, video tape or other media) or the manipulation, for those purposes, of the image by computer or other means. It may also include showing sexually explicit material to children, which is often a feature of the 'grooming' process by perpetrators of abuse;
- Consensual sexual activity involving an adult and an underage person. In relation to child sexual abuse, it should be noted that, for the purposes of the criminal law, the age of consent to sexual intercourse is 17 years for both boys and girls. An Garda Síochána will deal with the criminal aspects of the case under the relevant legislation.

**It should be noted that the definition of child sexual abuse presented in this section is not a legal definition and is not intended to be a description of the criminal offence of sexual assault.*
