Inspection Panel Summary

TORS GENTLEMAN FARMER is a well-proportioned horse with a good deep barrel. He has a very straight back and his gaskins could be stronger. He has good bone and substance and is obviously true to type. He displays an adequate walk and trot, although his trot is short, pushing and lacks power and impulsion. He has no problem making distance in canter, although his canter is weak. He shows good reflexes with sufficient scope for his type and a lovely attitude. He could open more behind and started jumping a little hollow but improves as he went on.
