IRISH SPORT HORSE (ISH) STUDBOOK

CLASSIFICATION OF STALLIONS IN THE MAIN SECTION OF THE ISH STUDBOOK

- **APPROVED:** Stallions that have met all veterinary and inspection/performance requirements. Approved stallions are eligible for Star Ratings, ranging from 1 to 5 stars, based on their own performance or their progeny's performance in FEI disciplines.

- **RECOGNISED:** Foreign bred performance stallions standing outside of Ireland that are registered in the main section of a studbook that is a full member of the World Breeding Federation for Sport Horses (WBFSH) and have met specified performance/progeny performance criteria and submit a declaration from their originating studbook stating that they have met the veterinary requirements for that studbook.

- **PRELIMINARY APPROVED (PA):** Stallions aged between 4 and 12 years of age that have met the veterinary requirements and the Stage 1 and Stage 2 inspection requirements.

- **PRELININARY RECOGNISED:** Foreign bred performance stallions aged between 4 and 12 years old, standing outside of Ireland that are registered in the main section of a studbook that is a full member of the WBFSH and meet specified performance and studbook criteria.

- **NOT APPROVED 1 (NA1):** Stallions that have met the veterinary requirements but have not met, or have not yet met, the inspection (conformation, movement, athleticism) or performance requirements. NA1 stallions can be upgraded to Approved status if they meet specified pedigree and performance criteria. Stallions that were previously classified as Section 1 (S1) are classified in this class.

- **NOT APPROVED 2 (NA2):** Stallions that have **not** met the veterinary requirements. Stallions that were previously classified as Section 2 (S2) are classified in this class.

- **ENTRY (ENT):** Stallions that have not come forward for a veterinary examination or inspection.

ISH STALLION ASSESSMENT PROCESS

- **STAGE 1:** Stallions must be a minimum of 3 years of age to be presented for the Stage 1 inspection. Stallions undergo a veterinary examination (including X-Rays) and an assessment of their conformation, movement and athleticism using linear scoring. Movement is assessed both in hand and loose and athleticism is assessed by means of loose jumping. Older stallions can opt to have their athleticism assessed under saddle.

Stallions that meet the inspection and veterinary requirements are invited to participate in the Stage 2 inspections.

- **STAGE 2:** Stallions must be a minimum of 4 years of age to be presented for the Stage 2 inspection which is a ridden assessment. Stallions are required to complete a course of up to 8 fences ridden by their own rider and by a test rider appointed by HSI. Each stallion undergoes a further veterinary examination and an assessment of their gaits and athleticism under saddle.

Stallions that meet the veterinary and inspection requirements in the Stage 2 inspections are classified as 'Preliminary Approved (PA)' and proceed to Stage 3.

- **STAGE 3:** 'Preliminary Approved (PA)' stallions aged between 4 and 12 years of age undergo Stage 3 of the assessment process which involves a review of the stallion's own performance and/or his progeny's performance. This review takes place annually between the ages of 6 and 12 years and stallions that are deemed to have sufficient performance/progeny performance are upgraded to 'Approved'. Stallions with insufficient performance/progeny performance by the age of 12 years can be re-classified as 'Not Approved 1 (NA1)'.

Sport Horse & Thoroughbred stallions that are classified as APPROVED. RECOGNISED or SUPPLEMENTARY APPROVED in the Irish Sport Horse Studbook are eligible to be awarded star ratings, ranging from 1 to 5, based on their performance and their progeny's performance in FEI disciplines. The following is the Irish Sport Horse Studbook Stallion Star Rating Criteria as of the 1st January 2013. Please note that the criteria is subject to future changes.

PERFORMANCE INFORMATION WITH FEI POINTS IN INTERNATIONAL COMPETITION

Each year the WBFSH publishes showjumping, eventing and dressage rankings for horses competing at international level in showjumping, eventing and dressage (see www.wbfsh.com).
Included in this publication is the combined number of FEI points for showjumping and eventing, as published in the WBFSH rankings list from 2004 to 2014, for the progeny of individual stallions. Also included is the combined FEI points published on the WBFSH ranking list from 2006 to 2014 for dressage.

NOTE: Every effort has been made to ensure that all the data contained in this publication have been accurately collated. However, since the information has been collated from a number of sources it may be incomplete in some instances.
Horse Sport Ireland shall not be held responsible for any inaccuracies herein.
Horse Sport Ireland shall not be responsible for documenting the performance of horses which are not registered in the Irish Horse Register.
Horse Sport Ireland wishes to acknowledge the co-operation of the World Breeding Federation for Sport Horses (WBFSH), Fédération Equestre Internationale (FEI), Showjumping Ireland, Eventing Ireland and Dressage Ireland.

Linear scoring was introduced in 2010 under the new Horse Sport Ireland inspection process for the Irish Sport Horse and Irish Draught Horse Studbooks. Linear scoring is a descriptive method of assessing a horse, describing where a horse lies between the biological extremes for any given trait. For example, the trait 'Stance of Forelegs' describes where a horse lies in relation to the two extremes for that trait, i.e. between obviously 'Back at Knee' and obviously 'Over at Knee'.

Trait		**Obvious**	**Average**	**Obvious**
		a b c	d e f	g h i
Stance of Forelegs	**Back at Knee**	[ ] [ ] [ ]	[ ] [ ] [ ]	[ ] [ ] [ ]

A horse that receives an 'a' for 'Stance of Forelegs' is being described by the inspection panel as being very obviously 'Back at Knee', while a horse that received a score of 'i' is being described as very obviously 'Over at Knee'. A horse that receives a score of 'e' is being described as average for 'Stance of Forelegs' (neither over or back at knee). Linear scoring is strictly about making observations on a horses traits and the average score is not always the most desirable. For example, the trait 'Scope' is assessed when the horse is jumped loose or under saddle. Horses are described in terms of where they lie between having 'Much' or 'Little' Scope. In this case scoring an 'a' for obviously 'Much Scope' is preferable to scoring an 'e' for 'Average Scope'.

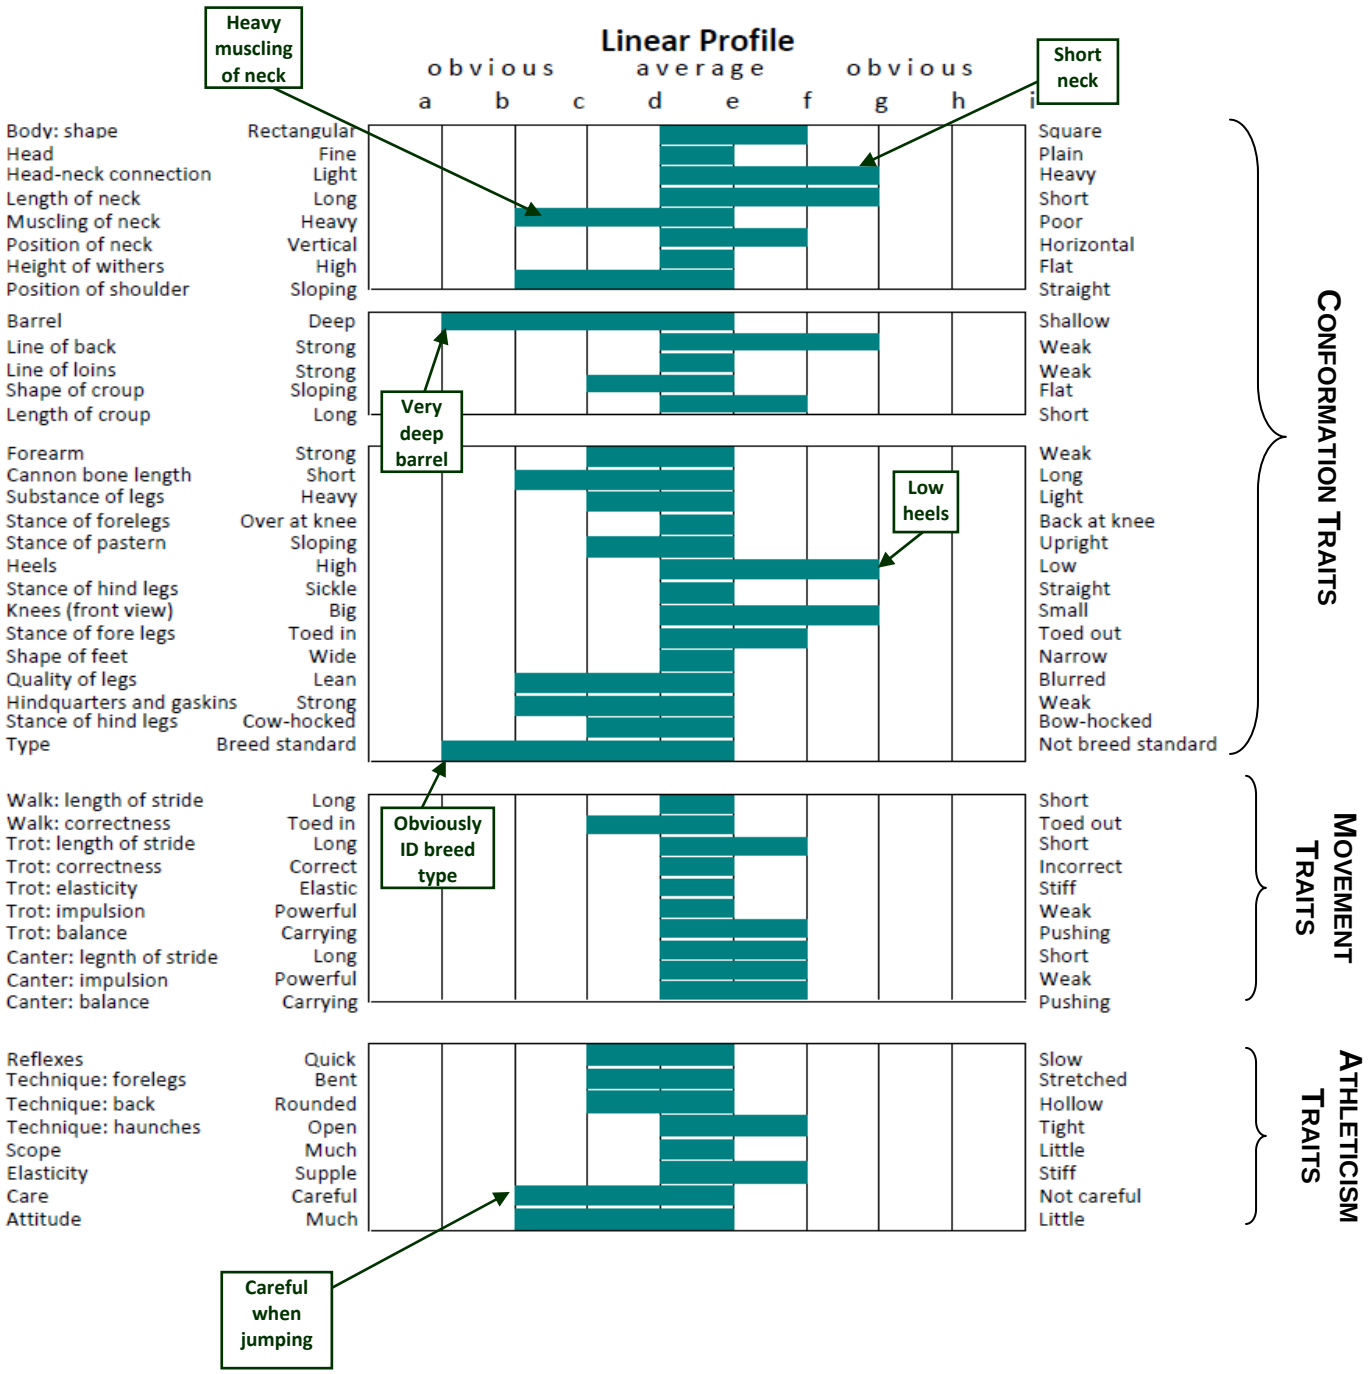

Trait		**Obvious**	**Average**	**Obvious**	
		a b c	d e f	g h i	
Scope	**Much**	[ ] [ ] [ ]	[ ] [ ] [ ]	[ ] [ ] [ ]	**Little**

There are 37 different traits that are scored on the Irish Sport Horse linear score sheet. 19 of these are conformation traits (eg. Position of Shoulder, Stance of Forelegs, Stance of Hindlegs), 9 are movement traits (eg. Trot Length of Stride, Trot Balance) and 9 are athleticism traits (eg. Scope).

In this publication linear profiles are published for all stallions that underwent the Irish Sport Horse Studbook inspection process between 2010 and 2015 and were classified as APPROVED.
