IRISH DRAUGHT (ID) HORSE STUDBOOK

CLASSIFICATION OF STALLIONS IN THE ID STUDBOOK

- ◆ **CLASS 1 (C1):** Stallions that meet the veterinary and inspection requirements. Class 1 stallions are eligible for additional merits (Gold, Silver and Bronze) based on their own performance and their progeny's performance in a number of disciplines. Stallions that were previously classified as 'RID' are classified in this class.
- ◆ **RID [GB]:** Stallions that were inspected and classified as 'RID' by the Irish Draught Horse Society Great Britain (IDHS[GB]) from 2001 to 2010.
- ◆ **RID [CAN]:** Stallions that have been classified in the RID class of the Irish Draught Horse Studbook maintained by the Irish Draught Horse Society Canada (IDHSC).
- ◆ **CLASS 2 (C2):** Stallions that meet the veterinary requirements but have not met the inspection requirements. Stallions that were previously classified as Section 1 (S1) are classified in this class.
- ◆ **G2 [GB]:** Stallions that have been classified as 'Grade 2' by the IDHS[GB] between 2004 and 2010.
- ◆ **S1 [CAN]:** Stallions that have been classified as 'S1' by the IDHSC between 2004 and 2012.
- ◆ **CLASS 3 (C3):** Stallions that do **not** meet the veterinary requirements. Stallions that were previously classified as Section 2 (S2) are classified in this class.
- ◆ **UNINSPECTED (C4):** Stallions that have not come forward for a veterinary examination or an inspection of any kind.
- ◆ **GENOMIC GRADE-Up (G-GU)** Stallions that have met specific genomic criteria to be eligible for entry into the ID Studbook.

NOTE: Stallions previously classified as 'RID' are classified as Approved in the ISH Studbook. Class 2 and Class 1 Irish Draught stallions that have not previously been classified as 'RID' are eligible for classification as Approved in the ISH Studbook provided, they meet specified performance criteria.

ID STALLION ASSESSMENT PROCESS

- ◆ **STUDBOOK INSPECTION:** Stallions must be a minimum of 3 years of age to be presented for the Irish Draught Horse Studbook inspections. Stallions undergo a veterinary examination (including X-Rays) and an assessment of their conformation, type, movement and athleticism using linear scoring. Movement is assessed both in hand and loose and athleticism is assessed by means of loose jumping. Older stallions can opt to have their athleticism assessed under saddle. Stallions that meet the veterinary and inspection requirements are classified as 'Class 1'.

OPTIONAL ATHLETICISM ASSESSMENT FOR BRONZE MERIT: The owners of 'Class 1' stallions aged 4 years and older can opt to have their stallion's athleticism assessed by jumping a course of fences at 1.00m level under saddle. Stallions that achieve the minimum athleticism score are awarded a Bronze merit for their own performance in the discipline of show jumping

IRISH DRAUGHT HORSE STUDBOOK MERIT CRITERIA

Stallions that are classified as CLASS 1, RID[GB] and RID[CAN] in the Irish Draught Horse Studbook are eligible to be awarded additional merits (BRONZE, SILVER and GOLD), based on their performance and their progeny's performance in a number of disciplines. The following is the Irish Draught Horse Studbook Stallion Merit Criteria as of the 1st January 2019. Please note that the criteria is subject to future change

LINEAR PROFILING

Linear scoring was introduced in 2010 under the new Horse Sport Ireland inspection process for the Irish Sport Horse and Irish Draught Horse Studbooks. Linear scoring is a descriptive method of assessing a horse, describing where a horse lies between the biological extremes for any given trait. For example, the trait ‘Stance of Forelegs’ describes where a horse lies in relation to the two extremes for that trait, i.e. between obviously ‘Back at Knee’ and obviously ‘Over at Knee’.

Trait		Obvious	Average	Obvious
		a b c	d e f	g h i
Stance of Forelegs	Back at Knee	[] [] []	[] [] []	[] [] []

A horse that receives an ‘a’ for ‘Stance of Forelegs’ is being described by the inspection panel as being very obviously ‘Back at Knee’, while a horse that received a score of ‘i’ is being described as very obviously ‘Over at Knee’. A horse that receives a score of ‘e’ is being described as average for ‘Stance of Forelegs’ (neither over nor back at the knee).

Linear scoring is strictly about making observations on a horse’s traits, and the average score is not always the most desirable. For example, the trait ‘Scope’ is assessed when the horse is jumped loose or under saddle. Horses are described in terms of where they lie between having ‘Much’ or ‘Little’ Scope. In this case scoring an ‘a’ for obviously ‘Much Scope’ is preferable to scoring an ‘e’ for ‘Average Scope’.

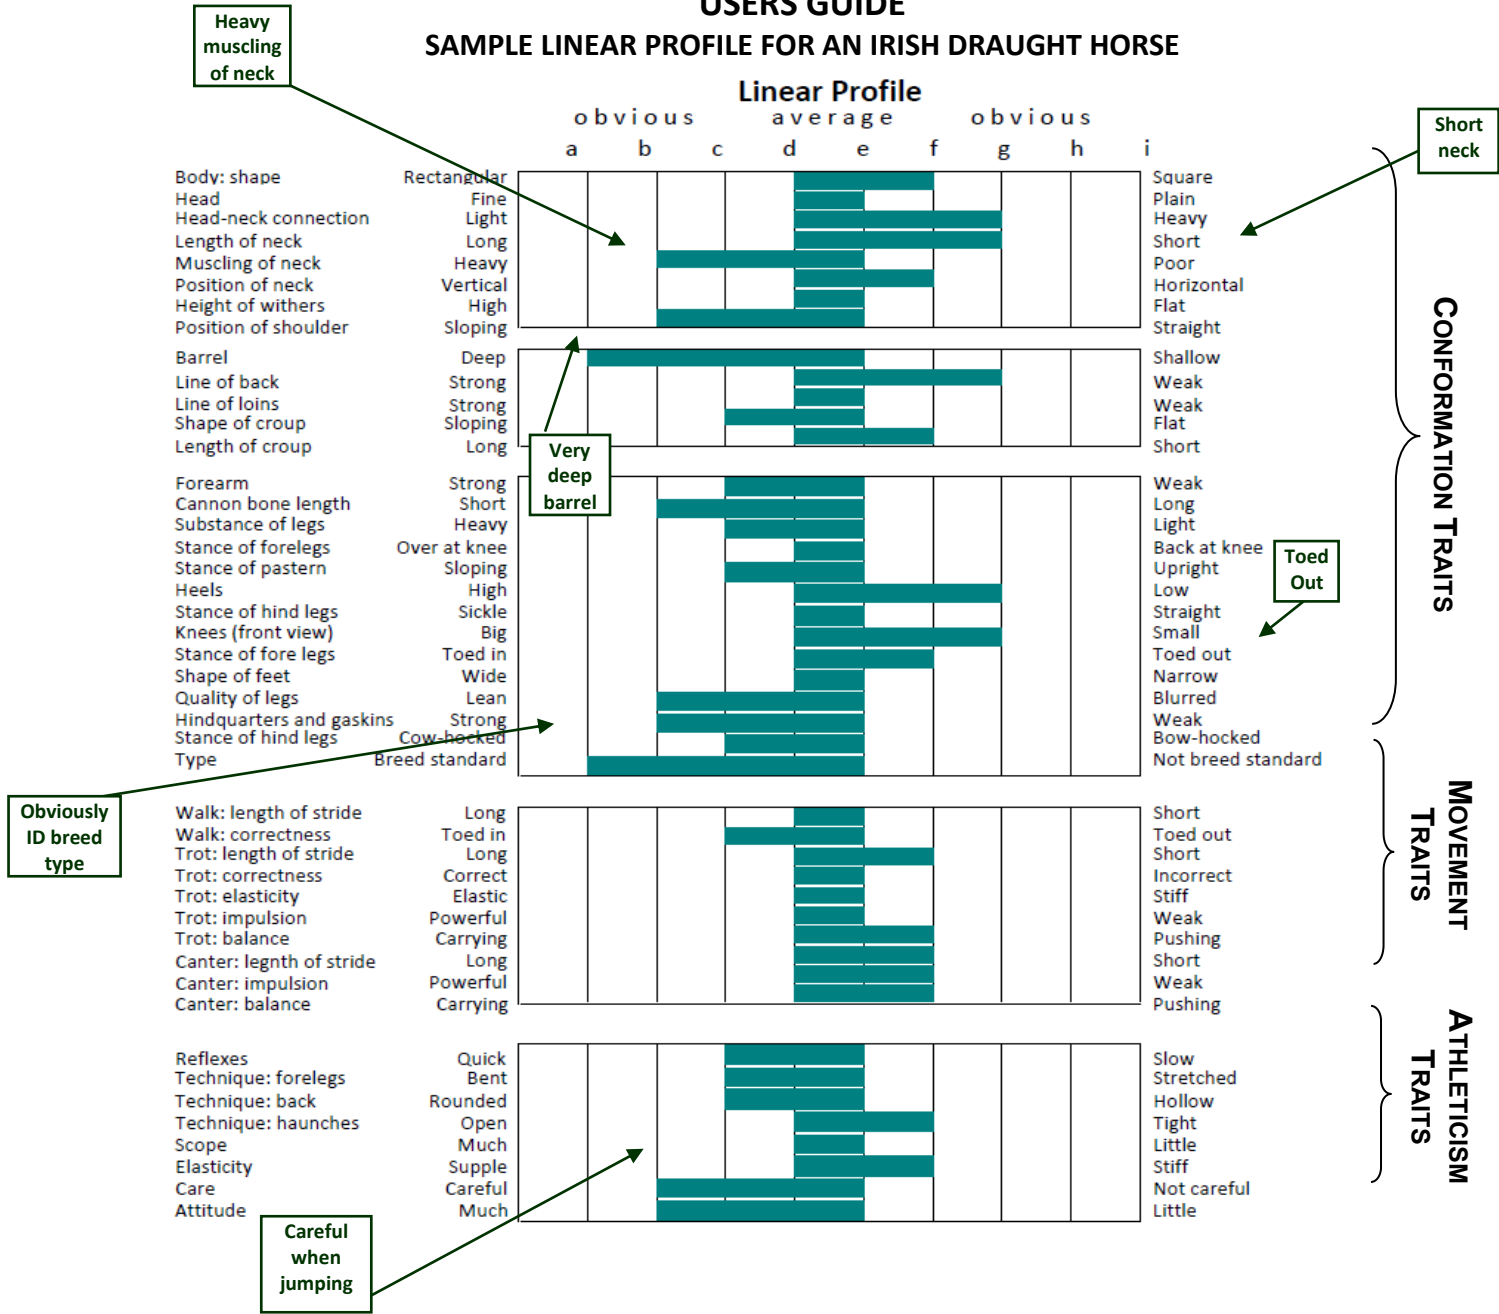

Trait		Obvious	Average	Obvious	
		a b c	d e f	g h i	
Scope	Much	[] [] []	[] [] []	[] [] []	Little

There are 45 different traits that are scored on the Irish Draught Horse linear score sheet. 19 of these are conformation traits (eg. Position of Shoulder, Stance of Forelegs, Stance of Hindlegs), 9 are movement traits (eg. Trot Length of Stride, Trot Balance) and 9 are athleticism traits (eg. Scope).

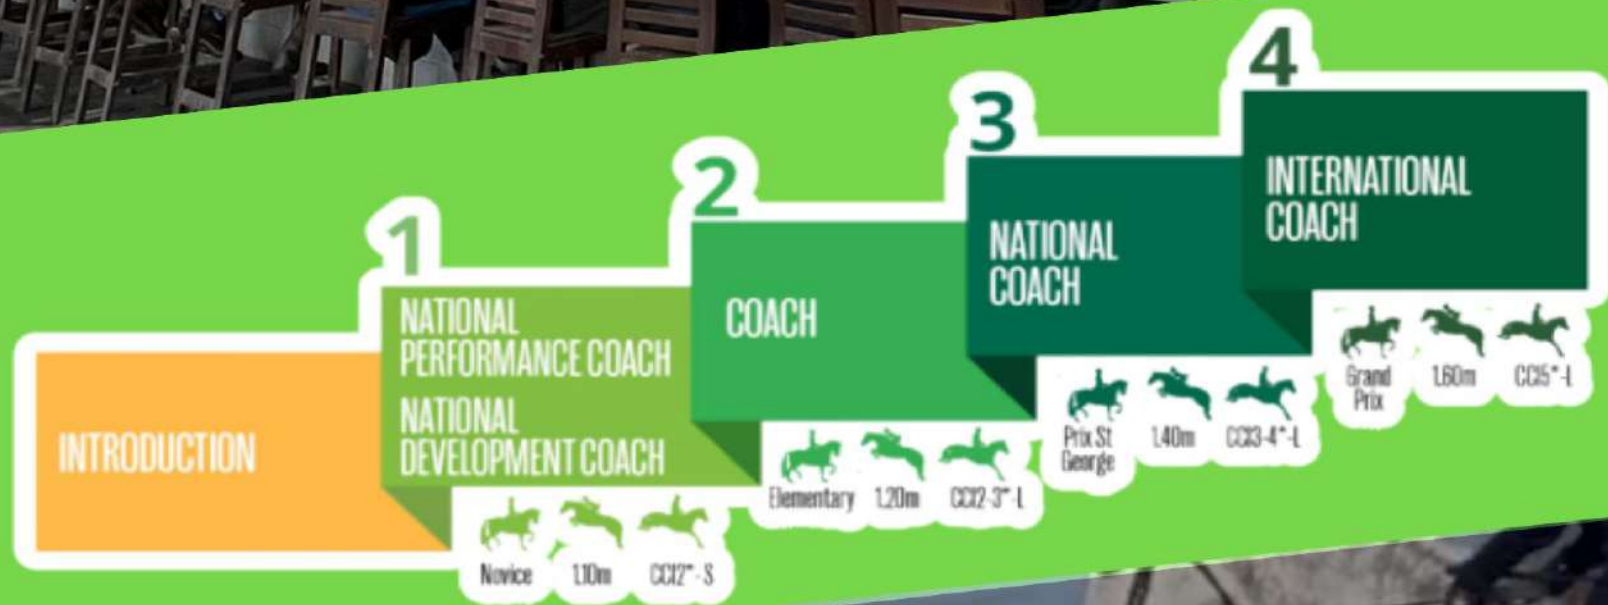

In this publication linear profiles are published for all stallions that underwent the Irish Draught Horse Studbook inspection process between 2010 and 2025 and were classified as CLASS 1.
