Continuous Professional Development (CPD) Programme

Criteria

CPD Programme

The CPD Programme is a vital element of the HSI Coaching Programme. It ensures HSI Accredited coaches meet their professional obligation to deliver top quality coaching to their riders. Participation in this programme helps coaches develop their technical skills, delivery styles and increases their knowledge base. The CPD Programme also gives riders confidence in the level of training they are receiving, knowing that the coach is part of an assured professional development programme. For coaches, attending CPD events helps to increase their network and gives an opportunity to interact with their peers and improves career prospects.

First Aid & Safeguarding 2021
