

Consultation Paper for the appointment of Industry Directors to the Board of Horse Sport Ireland

The RDS would like to see the reinstatement of the structure as determined by Indecon, and which was in operation till late 2022. This structure provided a good mix of industry representation and skill sets from outside the industry which might be required from time to time.

An enhancement to the Indecon structure is to have a current official of DAFM in attendance at Horse Sport Ireland Board meetings as a Director, or as a representative, to enhance the relationship with the main funding body.

Flor Madden
Chairman, RDS Equestrian Committee
