

Future Breeding Horse Schooling (I) Scheme 2024

Horse Sport Ireland are delighted to re-launch the schooling scheme for owners of future breeding performance sport horses including fillies, young mares, and stallions. This scheme is funded by the Department of Agriculture, Food, and the Marine (DAFM) by National Breeding Services. The aim of this initiative is to incentivise Irish breeders to produce future breeding horses through a designated training pathway. This scheme aimed to add value to these young equines while providing information to their owners regarding their positive and negative traits, to aid breeders with informed decision making.

Schooling (I)

This scheme is open to breeders/owners with young horses intended for breeding aged between 4- 6 years of age. The schooling for competition option is open to breeders/owners with mares and stallions born between 2020 and 2018 and are sent for training with a producer selected by the owner who must meet producer criteria outlined below. For smaller/Native Rare breeds and ponies, producers will be selected on the basis of their skill in a specific discipline (ie., pony size, driving, showing) on a case-by-case basis. Breeders may apply for up to two horses to participate in the scheme. Horses cannot complete a combination of starting, schooling I and schooling II schemes in the same year, i.e. 2024.

Breeders/owners will have the opportunity to apply to participate in the scheme by completing an online application only. **HSI will reimburse breeders with funds towards eight weeks training with a producer to school their young horse up to a maximum of €1,500 per horse/pony** following receipt of a valid application which is subsequently approved prior to the training period. Prior to reimbursement, the following must also be supplied: an invoice from the producer, video evidence of the horse's progress (before and after videos). Ponies are eligible to receive funding under the scheme but must be registered/endorsed in a DAFM Approved Pony Studbook.

This HSI scheme has a number of objectives:

1. Support the production of Irish bred fillies to determine their suitability as performance and breeding animals.
2. Support the production of a small number of stallions to determine their suitability as performance and breeding animals.
3. Incentivise breeders to invest in the production of their future breeding horses.
4. This scheme helps breeders to identify horses suitable for breeding retention and or the marketplace.
5. This scheme adds value to the equine through formal production and market purposing.
6. Supports the market purposing of rare breeds – this is an issue as defined by the Kerry Bog Pony cooperative society.
7. This scheme supports rural spread and dissemination of funding to producers, suppliers, breeders, venues, and equine related breeding business nationwide.
